Jiyoung Yun

Phone: (+82) 10 – 9168 – 0221

Email: clatya96@gmail.com

Area of interest: Human-computer interaction / gaze-based interaction / artificial intelligence / mixed reality

Education

Aug 2021 - Feb 2024 : Korea Advanced Institute of Science and Technology (KAIST)
M.S. in Culture Technology - IBD lab (Advisor: Prof. Jihyeon Lee)

Mar 2015 - Jul 2021 : Sungkyunkwan University (SKKU)
B.F.A. in Fine Arts, B.A. in Film, Television and Multimedia (double major)

Work Experience

Sep 2024 - Present : KRAFTON - User Researcher
Game user research, research methodology development

May 2024 - Sep 2024 : NC SOFT - UX Researcher
Game user research

Dec 2015 - Apr 2016 : Ujung Art Center
Exhibition installation and curation assistance

Publications

Sep 2023 : Spatial Behavior Data in Virtual Conference,
Cultural DNA, Springer, 3rd author

Sep 2023 : Analysis of Museum Social Media Posts for Effective Social Media Management,
Cultural DNA, Springer, 1st author

Jun 2023 : Dynamic Community Detection based on Temporal Behavior Data in Virtual Conferences,
Korean Institute of Information Scientists and Engineers, 5th author

Feb 2023 : Metaverse Communication Channel to Enhance Camaraderie of Telecommuters,
HCI KOREA, co-1st author

Oct 2022 : CARDS: Comprehensive AR Docent System, IEEE ISMAR, co-1st author

Apr 2022 : Will AI Image Synthesis Technology Help Constructive Education at The Online Art Museum?, CHI Extended Abstract, 2nd author

Research Projects

Dec 2024 - Present : KRAFTON - Research Method Development
Develop game user research methodologies, including eye-tracking-based analysis of UI intuitiveness and player learning curves

Sep 2024 - Present : KRAFTON - Game User Research
Conduct quantitative and qualitative user research studies to verify that games in development deliver the intended player experience

Jul 2022 - Dec 2022 : KAIST - Geographic Information System Construction for Metaverse
Developed AI-driven prediction of spatial data usage and maintenance strategies

Sep 2022 - Dec. 2022 : SK-SUNI - Metaverse UX Project
Designed metaverse UX to improve VR-based work environments

Dec 2021 - Mar 2022 : KAIST - Visitor-Centered Museum Project
Developed an exhibition information modeling framework and mobile visitor-guide service for visitor-centered art museums

Sep 2021 - Dec 2021 : KAIST - A-Museum Project
Developed a spacetelling authoring tool and platform to support exhibition planning based on XR twins of art museums

Sep 2020 - Dec 2020 : Transmedia Lab (Department of Film, Television and Multimedia), SKKU
Published a research book for the “AI-Rewritten Complete Works of Yi Yuk-sa” project, presented at the 9th Transmedia Institute International Symposium

Research Internship

Mar 2020 - Aug 2021 : i-Lab, Department of Interaction Science, SKKU (Advisor: Prof. Hayeon Song)

Scholarships & Awards

2021 - 2024 : Cultural Technology AR Program Scholarship, KAIST

2023 : First Prize, Idea Planning Category, The 11th Cultural Data Utilization Contest, Ministry of Culture, Sports and Tourism, South Korea

2020 : Research Excellence Scholarship, Sungkyunkwan University

2019 : Academic Excellence Scholarship, Sungkyunkwan University

2015 - 2017 : Haesung Cultural Foundation Scholarship

Teaching Experience

2023, Spring : KAIST - ‘Creative Experiment and Practice’
Teaching Assistant

Volunteer Experience

Aug 2019 : World Friends Korea ICT Volunteer in Kyrgyzstan
- Sep 2019

Mar 2015 : After-School Art Education Volunteer at Haesung Girls’ High School
- Dec 2015

Creative Experiences

Jul 2023 : <2023 ASYAAF> group exhibition
-Aug 2023 Supported by The Chosun Daily

Nov 2021 : <Agitpunkt> group exhibition
-Nov 2021 Supported by the Youth Arts Support Agency

Nov 2020 : <MARK TIME> group exhibition
-Dec 2020 Sungkyun Gallery

Jan 2020 : Seoul Museum of Art – Seoul Mediacity Biennale Project, Feedback Companions
- Dec 2020 Published a book, ‘A study on Social Escape Techniques’

Skills & Techniques

Programming: Python, C# (Unity), Java (Android Studio)

Eye-tracking: iMotions Smart Eye Aurora, Tobii Eye-tracker VI, Gazepoint GP3

XR Development & Devices: Meta Question Pro/2/3

Statistical Analysis: Python, SPSS, R

Languages

Korean: Native

English: Advanced (TOEFL: 5.5 / 6.0)
